OUR COMMITMENT

For nearly 100 years, Farm Credit has been committed to our mission of service to rural America. Through our National Contributions Program, Farm Credit is working to ensure a vibrant and thriving rural America for generations to come.

The business of agriculture is vital to the world's economy. Preserving, protecting and supporting agriculture and rural America are important to Farm Credit, and that's why Farm Credit Gives.

OUR APPROACH

Farm Credit Gives to provide funding to people and programs that support agriculture, working with partners who deliver national programs that align with Farm Credit's mission of service to agriculture and rural America.

In addition, local Farm Credit organizations give millions of dollars and thousands of volunteer hours annually to support local and regional community programs. All for one purpose — to support the future of agriculture and of rural America.

GROWING ADVOCATES FOR AGRICULTURE

Farm Credit has been supporting rural communities for decades and since 2010 has supported more than 100 organizations and programs committed to building a diverse, successful agricultural industry and a thriving rural America — for today, tomorrow and a new generation of agricultural leaders.
